

How to Uninstall iStatus Desktop

Windows 7

1. Open Programs and Features by clicking the **Start** button, clicking **Control Panel**, clicking **Programs**, and then clicking **Programs and Features**.
2. Select **iStatus Desktop** from the list and click **Uninstall**. If you're prompted for an administrator password or confirmation, type the password or provide confirmation.

Windows 8 or Windows 8.1

1. Swipe in from the right edge of the screen, and then tap **Search**. (If you're using a mouse, point to the upper-right corner of the screen, move the mouse pointer down, and then click **Search**.)
2. Type **control panel** in the search box, and then tap or click **control panel**.
3. Under **View by:**, select Large Icons, and then tap or click **programs and features**.
4. Tap or click **iStatus Desktop**, and then tap or click **Uninstall**.
5. Follow the instructions on the screen.
